GRAPES

Grapes can be grown all through Western Oregon and Washington if proper varieties are selected. All of our varieties herein listed thrive in this section. Don't be without all the grapes that you can use, for they are easily grown.

Price: Each 10 100
2 yr. vines..... 30c 25c 20c
Concord—Large, blue-black grapes of highest quality.

Improved Concord (King)—Stronger grower and a little earlier than Concord. Larger.

Iona—A fine red grape.

Niagara—The best of the white grapes.

Island Belle (Campbell Early)—A large early, blue-black variety that ripens early; two weeks ahead of Concord. One of best for local use.

Hubbard—Black. Early as Island Belle. Superior quality.

McPike—Ripens with Worden. Very large, black grape. A fine variety for home use.

Worden—A large blue-black variety slightly earlier than Concord.

NOTE:—We prepay to Western Washington and Western Oregon points where order is \$1.00 or over. For less than \$1.00 add 15c and we will prepay.

If not fully paid for we collect balance due C.O.D. We add 15c to cover this added cost. You can avoid this added cost by sending in full payment before shipment.

SHADE AND FLOWERING TREES

A house without shade is a poor home. Add comfort and beauty to your home by planting our shade trees. The cost is nothing compared to the added comfort and satisfaction.

Catalpa—Fast growing. Makes large tree. Immense leaves. White flowers in summer.

3 to 4 ft. trees, \$1.00.

Chinese Elm—Fast growing. Drought resistant. A fine quick growing shade tree.

Copper Beech—Very slow growing. Copper colored leaves. Grafted.

3 to 4 ft. trees, \$3.25.

Box Elder (Variegated)—Green and silver leaves. Slow growing.

3 to 4 ft., \$1.00; 4 to 5 ft., \$1.25.

Ginkgo (Maidenhair Tree)—A handsome Chinese tree.

4 to 6 ft., \$2.50.

European Birch—Narrow, upright growing. Bark turns white after a few years.

3 to 4 ft., 75c; 4 to 6 ft., \$1.00.

Cut Leaf Weeping Birch—A pretty ornamental tree for lawn use. Slower growing than the American birch.

4 to 5 ft. trees, \$1.25; 5 to 6 ft., \$1.75.

Kwanzan Jap Flowering Cherry—Best of the Jap cherries. Double pink flowers.

3 to 4 ft. trees, \$1.00 each; 4 to 5 ft., \$1.25.

Amanagawa Jap Cherry—Tall, narrow growing with light pink double flowers.

3 to 4 ft., \$1.00; 4 to 5 ft., \$1.25.

Jap Weeping Cherry—Either double or single pink flowers. (Can't be shipped by parcel post.) \$2.50.

Bechtold's Flowering Crabapple—Large double pink flowers. Slow growing. Blooms later than other crabs.

Niedzwetzkyana Crabapple—Leaves tinged red. Flowers deep pink. Fruit purplish.

Scheidecker's Crab—Semi-double flowers tinged pink. Yellow fruit.

Prices Flowering Crabs: 3 to 4 ft., \$1.00; 4 to 5 ft., \$1.25.

Blieriana Plum—Enormous quantities of double pink flowers before leaves. Very early in spring. Bronze leaves.

3 to 4 ft., 75c; 4 to 6 ft., 90c; 2 yr. branched \$1.25.

Vesuvius Plum—Deep red leaves. Single light pink flowers. Medium growing tree.

3 to 4 ft., 75c; 4 to 5 ft., 90c; 2 yr., \$1.25.

Pink Flowering Florida Dogwood—A most beautiful slow-growing tree with pink flowers before the leaves. Grafted trees.

18 to 24 inches, \$2.25; 24 to 30 in., \$3.00.

Paul's Scarlet Hawthorne—Red flowers in spring. Medium grower.

3 to 4 ft., 75c; 4 to 5 ft., 90c; 5 to 6 ft., \$1.00.

Schwedlers Maple—A hard maple like Norway maple except new growth is red.

6 to 8 ft. trees, \$1.50.

Mountain Ash—Medium growing tree with red or orange berries.

3 to 4 ft., 75c; 4 to 5 ft., \$1.00; 2 yr. branched, \$1.25.

Flowering Peach—Pink. Double flowers. Makes small tree.

3 to 4 ft., 75c.

Double Red Weeping Peach—New. Double flowers. Makes beautiful tree.

2 to 3 ft., 75c; 3 to 4 ft., \$1.00.

Pink Flowering Apricot—New. Pink flowers very early in spring.

3 to 4 ft., 75c.

Lombardy Poplar—Narrow, upright, rapid growing shade tree.

3 to 4 ft., 75c; 4 to 6 ft., \$1.00.

Weeping Willow—The fastest growing of all trees. Makes very large tree. For quick shade use this one.

3 to 4 ft., 75c; 4 to 6 ft., \$1.00.

DECIDUOUS FLOWERING SHRUBS

This class of shrubs lose their leaves during winter but offer a beautiful display of flowers in spring. They will endure lack of watering much better than the evergreen class of shrubs. Plant these shrubs around the base of buildings and around the edges of the yards for best effects. Plant 4 to 5 feet apart.

Price: 75c each prepaid unless marked otherwise for 2 to 3 ft. shrubs.

Pink Flowering Almond—An early flowering shrub.

Jap Barberry—Thorny, red berries.

Red Leaf Barberry—90c.

Beauty Bush (Kolkwitzia)—Similar to Abelia but not evergreen. Hardy. \$1.00.

Butterfly Bush—Rank growing. Purple blooms late summer.

Highbush Cranberry—Leaves and growth like snowball but has red berries.

Pink Deutzia—Spring flowering.

Forsythia—Yellow flowers early spring. 60c.

Bush Honeysuckle—White flowers with red berries.

Hydrangea P G—Cone shaped white flowers changing to pink.

Tree Hydrangea—Same as above except grown on single tree-like stock.

3 to 4 ft., \$1.25; 4 to 5 ft., \$1.50.

Kerria—Double orange-yellow flowers. Grows 6 feet high.

Lilac—Common purple.

Grafted Lilacs—2 to 3 ft., \$1.25; 3 to 4 ft., \$1.50. Varieties: Belle de Nancy, double, pink-lavender; Chas. Joly, double, reddish-purple; Ludwig Spaeth, single, reddish-purple; Marie LaCraye, single white; Pres Grevy, double, blue-lavender.

Mock-Orange—Single or double flowers.

Jap Quince—Very early flowering. Flowers red to orange.

Common Snowball—

Jap Snowball—Does not have aphids like common Snowball.

2 to 3 ft., \$1.00.

Virburnum Carlesii—Highly fragrant, pinkish-white flowers.

15 to 18 inches, \$2.00.

Spirea Anthony Waterer—Pink flowers in summer.

Spirea Thunbergii—Very early white flowers.

Spirea Van Houttei—Larger bush and later flowering than above.

Pink Weigelia—

Weigelia Eva Radke—Carmine-red flowers.

California Privet—A fine hedge plant. You can enclose a yard with a privet hedge more cheaply than with fence.

\$1.25 per doz., or \$9.00 per 100.

ROSES

Nowhere does the Rose grow better than in the Pacific Northwest. The rose blooms from spring till fall in this favored climate.

No home should be without roses. Our list includes the best varieties known.

Bush roses: 50c each; \$5.00 per dozen for No. 1 grade; 25c each; \$2.50 per dozen for No. 2 grade.

Varieties marked ** 75c each.

Angeles Pernet—Coppery orange-yellow.

Autumn—Burnt orange.

Austrian Copper—Single. Copper red on one side of petals and yellow on reverse.

Betty Uprichard—Copper-pink.

**Catalonia—Vermillion. A different shade in roses. New. A beauty.

Caladonia—White. Well formed.

Cecil—Yellow. Large flowers.

Cecile Brunner—Tiny, double, pink flowers.

Chas. K. Douglas—Bright scarlet-crimson.

Chas. P. Kilham—Well formed buds. Oriental red suffused with orange.

Condesa De Sastago—A new Spanish beauty. Glowing orange-scarlet on inside and yellow on reverse. Best hot weather rose. One of finest roses in years.

Conqueror—New saffron yellow buds.

Constance—Yellow.

Crested Moss—Double pink flowers.

Cuba—Semi-double orange-scarlet. Showy.

Dame Edith Helen—Shell pink. Well formed.

Dainty Bess—Best single. Rose pink.

**Duquesa De Penaranda—New. A gold medal rose. Coppery apricot.

Edith Nellie Perkins—Orange, buff inside. Coppery pink outside. A fine rose.

E. G. Hill—A large dazzling scarlet. Fragrant.

Etiole de Hollande—Dark velvety red. One of best reds.

Fau Jos. Looymans—Bronzy yellow flowers.

Frau Karl Druski—Large white.

Gaiety—A blend of orange, red and silver.

Gen. MacArthur—Glowing crimson-scarlet.

Golden Dawn—Sunflower-yellow. Well formed.

Golden Emblem—Golden yellow. Fine.

Golden Glean—A fine yellow.

Gruss en Teplitz—A very hardy crimson.

**Heinrich Gaede—Copper orange. Best of new highly colored roses. A most striking beauty.

Hadley—Rich crimson.

Hoosier Beauty—Glowing crimson.

Imperial Potentate—Brilliant, large well-formed pink. One of best.

Innocence—Single, pure white.

Irish Fireflame—Single. Orange shaded red. Long pointed buds.

Isobel—Single. Orange-pink.

Joanna Hill—Well shaped, light yellow.

Jules Gaudard—Orange-rose. Large.

Julien Potin—A dandy pure yellow.

K of K—Semi-double brilliant scarlet.

Kirsten Poulsen—Single, open scarlet flowers.

Lady Hillingdon—Long, pointed apricot buds.

Lady Forteviot—Golden yellow shaded apricot.

Lady Margaret Stewart—Yellow flushed orange-red.

Li Bures—Vari-colored red and yellow.

Lord Charlamont—Fragrant deep crimson.

Los Angeles—Perfectly formed flame pink.

Mayor Baker—A spectacular new rose. Resembles Cuba in form but greatly intensified in color.

McGreedy's Scarlet—Large, brilliant scarlet.

Margaret McGreedy—Large, orange-scarlet.

Marion Cran—Light yellow, edged cerise. Good.

Mable Morse—Clear yellow.

Mme Butterfly—Flesh pink, beautifully formed.

Mme Edu Herriott—Coral pink shaded yellow and scarlet. One of best.

Mme Van de Voorde—Vivid scarlet. Free blooming.

Mme Caroline Testout—"The Portland rose." Clear pink. Very hardy.

Mrs. Jules Bouche—White.

Mrs. Aaron Ward—Buff-yellow.

Mrs. E. P. Thom—One of best yellows.

Mrs. P. S. Dupont—A fine yellow with long pointed buds.

Mrs. Alex Dreux—Large, golden yellow.

Mrs. Sam McGreedy—Cooper-orange flushed red.

Mrs. G. A. Van Rossem—Yellow with orange-brown veins.

Olympaid—Blood red to cerise-orange. Pointed buds.

Padre—Brilliant coppery scarlet.

Pres. Hoover—Long pointed buds of orange scarlet opening into large orange and pink flowers. Vigorous. One of best roses grown.

Pres. Jac Smits—Semi-double brilliant dark red.

Queen Alexandria—Inside petals vermilion; outside old gold.

Rapture—Pink. An improved Mme Butterfly.

Red Radiance—Light reddish crimson.

Rev. Page Roberts—A good yellow.

Roslyn—Golden yellow.

Shot Silk—Orange-rose over yellow.

Soeur Therese—Large, long, dark, golden buds.

lemon. Large, well formed flowers. Best white climber.

Paul's Scarlet Climber—Great clusters of bright scarlet flowers. Most used of all climbers.

**Reveil Dijonnia—A remarkable new climber from Portland Test Gardens. A striking bi-colored flower of golden yellow suffused with pink. Recurrent blooming. If you want an unusual beauty try this one. It is different.

Scorcher—Large, ruffled semi-double flowers of blazing scarlet.

Silver Moon—Single white. One of rankest growing bushes known.

**Sou de Claudius Denoyel—A fine red climber. Velvety crimson, recurrent bloom. Large flowers, well formed. A fine red climber.

PATENTED ROSES

We can supply most of the patented roses being advertised. The price is the same all over America, being controlled by the owner of the patents. We do not boast these patented varieties for their price is high and too often they have proved to be no better than the unpatented varieties offered at much lower prices.

VINES

Clematis Montana—White flowers in spring. 75c.

Clematis Paniculata—White flower in fall. 75c.

Clematis Jackmani—Large flowering purple flowers. \$1.25.

Clematis Ramona—Large flowering blue flowers. \$1.25.

Clematis Henryi—Large flowering white flowers. \$1.25.

Boston Ivy—Clings to stone and brick. 60c.

English Ivy—Evergreen. Clings. 60c.

Belgian Honeysuckle Vine—Red and yellow flowers. 75c.

Silver Lace Vine—Rapid growing. White lacy flowers. 75c.

Trumpet Vine—Large orange-red flowers. 75c.

Wisteria—Grafted purple long-cluster type. \$1.25.

PEONIES

Peonies are best planted before December 1.

Delachi—Red. 75c.

Edulis Supurba—Pink. 60c.

Felix Crousse—Red. 75c.

Festiva Maxima—White. 60c.

Louis Van Houtte—Dark crimson. 75c.

Karl Rosenfeld—Fire red. \$1.00.

Mons Jules Elie—Very large. Pink. 90c.

Philomelle—Pink and yellow. 60c.

Primevere—White and yellow. \$1.50.

EVERGREEN SHRUBS

We have a very complete line of broad-leaf and conifer evergreen shrubs. Such shrubs must be moved with a heavy ball of dirt, which makes shipping expensive. While we sell large quantities of such stocks at our Salem sales-yard, we do not list them for shipment. If interested in the more common stock such as named varieties of rhododendrons, named camellias, daphnes, andromedas and azaleas, write us of your needs and we will be pleased to quote.

Send for free leaflet on "Filbert Growing."

PEARCY PAYS THE TRANSPORTATION ON ALL ORDERS of \$1.00 or over, west of the Cascades. If order is less than \$1.00 add 15c on transportation.

APPLES

	Each	10	100
2 year branched.....	75c	65c	60c
4 to 6 foot whip.....	60c	50c	40c
3 to 4 foot whip.....	50c	40c	30c

Varieties: (in approximate order of ripening.)

*Red Astrachan—Very early cooking apple. Striped with red. Acid.
*Red June—Very early. Good quality.
*Yellow Transparent—Yellow. Best summer apple.

*Gravenstein—Large striped apple. Best early fall apple.

*Red Gravenstein—Like common Gravenstein except its color is solid red.

*King—Large, striped red. A very good apple to follow Gravenstein.

Tolman Sweet—A sweet apple.

*Jonathan—Red. Medium size. Bears young and regularly. Good quality.

Grimes Golden—Best quality yellow apple. McIntosh—A late fall apple.

Ortley—A high grade yellow apple.

Winter Banana—Large, yellow apple. Good cooking.

Wagener—Bears very young. Good keeping. Delicious—A fine red striped apple. At its best between Thanksgiving and Christmas.

*Red Delicious—Same quality as Delicious but with solid red color. A better keeper. One of the very best eating apples.

*Yellow Delicious—A fine yellow apple. Bears very young. Keeps well.

*Spitzenberg—Highest quality. Good keeper. Red. Season Dec., Jan., and into February.

Baldwin—Red. Good keeper.

Northern Spy—Red. Juicy. Fine quality. Keeps well.

*Red Spy—Like Northern Spy except a solid red. A new variety.

*Yellow Bellflower—Yellow. An old-time cooking apple.

Snow (Fameuse)—A New England late fall and winter apple. Fine eating.

Rhode Island Greening—A famous New England apple. A keeper.

Winesap—A good, red late winter apple.

Roxbury Russet—An old-time russeted apple. Good size. Good keeping.

*Rome Beauty—Bears heavy and regularly. One of best keepers and best baker.

*Red Rome—A solid red apple having all other characters of Rome Beauty.

Stayman Winesap—Good keeping. Dull red color.

*Yellow Newtown—Late. Fine keeper. High quality.

*Hyslop Crab Apple—Medium size. Striped. One of best crabs.

Note—Variety marked with * can be supplied in two year trees. We also have a small supply of some other varieties in two year trees.

PEARS

No home orchard should be without Pears, both the summer canning varieties and the fine keeping pears.

Prices: Same as Apples.

*Bartlett—The great canning Pear. Ripens in August. High quality. If you can have but one pear choose Bartlett.

*Bosc—A long-necked, russeted pear, of highest quality. Ripens a month or six weeks after Bartlett. A fine pear.

Warden Seckle—A high quality, winter dessert variety. Bears young.

*Comice—A large late winter pear. Highest quality.

*D'Anjou—A winter pear of highest quality.

*Seckle—Small, brownish-green. Finest quality. Early winter.

*Winter Nelis—Small. Russeted. Late keeper. High quality.

PEACHES

Peaches will thrive all through the region west of the Cascades. Plant on well drained land and spray twice each winter for best results. In sections where there is any question as to hardness plant Rochester. Mayflower and Triumph for a long season of hardy varieties.

Prices:	Each	10	100
---------	------	----	-----

4 to 6 ft. 60c 50c 40c

3 to 4 ft. 50c 40c 30c

2 to 3 ft. 40c 30c 25c

Varieties listed in approximate order of ripening.

Mayflower—White juicy flesh. Earliest. For eating raw only.

Triumph—Semi-cling. Earliest yellow-meated peach. Heavy and regular bearer.

Golden Jubilee—A new freestone variety that ripens a little ahead of Rochester. Very promising.

Slappy—A yellow-meated freestone. One of highest quality canned.

Rochester—Hardest of all peach varieties. A Crawford type ripening its first fruit a week or ten days before Early Crawford. No split pit fruits. A good canning and eating variety. Best peach in Puget Sound region.

Champion—A fine freestone, white meated peach.

Early Crawford—Most used peach in Oregon. Freestone, fine quality.

Charlotte—Very similar to Early Crawford but a few days later and considered by many to be more productive and a better peach.

Carmen—A high quality white meated peach. Unexcelled for dessert use.

Eclipse—Another new yellow freestone that is very promising.

Improved Elberta—Best of all canning varieties but subject to leaf curl and requires careful spraying. Heavy bearer. Yellow freestone. A little earlier than the common Elberta and better in every respect.

J. H. Hale—One of most popular varieties. Fruit very large. Productive.

Elberta Cling—A fine large clingstone canning variety.

Tuscan Cling—A yellow meat cling peach.

Muir—A yellow-meated freestone that is a fine canner. Not so good to eat fresh.

Perfection—A very productive canning freestone. Fruit only medium size.

Late Crawford—A large freestone that ripens about a month after Early Crawford.

Salway—Ripens in early October. Large. Yellow flesh. Freestone. Does not always sugar up due to lateness of ripening.

PRICES IN THIS LIST INCLUDE TRANSPORTATION TO ALL POINTS WEST of the

Please Read Before Ordering

WE GROW OUR OWN NURSERY STOCK HERE IN SALEM

Buy direct from the grower for best results. Grown under west of the Cascades conditions, our stock is thoroughly ACCLIMATED TO WESTERN WASHINGTON AND OREGON CONDITIONS.

Why risk sending away for stock grown under different climatic conditions when you can buy ACCLIMATED STOCK, direct from GROWER, for less money than the usual price offered by outside selling organizations.

PLANTING SEASON:—Nursery stock does not ripen up thoroughly until about the middle of November. We dig and ship immediately that which is ripe, but WE DO NOT dig before mature, simply that we may beat the other fellow to shipments.

All the items listed herein can be planted from middle of November until late February or early March, depending upon the earliness of the spring. For best results plant before middle of February.

TRANSPORTATION:—We pay the mailing or express charges on items listed herein to points west of the Cascades, provided the amount of order is \$1.00 or over. Where order is less than this amount add 15c to help pay transportation.

TERMS:—For orders of less than \$1.00 send cash in full with order. For orders over \$1.00 send 20% deposit. (Minimum deposit 50c.) If not paid for in full before shipping date we add 15c to C.O.D. to pay for the C.O.D. costs. Pay in Full before shipment and save this charge.

GUARANTEE:—We guarantee all stock to be true-to-name, free from disease and reach you in a live and healthy condition. However, we do not guarantee stock to grow under conditions over which we have no control. Should there ever be any complaint please make it as early as possible and it will be handled in a fair and square manner.

We exercise the greatest of care in delivering first class, true-to-name stock and hold ourselves in readiness to replace same when proven otherwise. But at no time will we be held liable for an amount greater than the original price.

This Nursery is owned and operated by Knight Percy, formerly part owner of Percy Bros. Nursery. Percy Bros. Nursery is no longer operating.

Cascades where order is for \$1.00 or over. For less than \$1.00 add 15c to order and we will prepay.

NECTARINES

The Nectarine tree looks like a peach tree and the pit is like a peach pit. The skin, however, is smooth, like that of a plum. The flesh is rich and smooth and has a flavor all its own. A most delicious fruit that is little known here, but which will thrive wherever the peach thrives. Every home planting should have a Nectarine tree.

Stanwick—Leading Nectarine variety.

Quetta—Large, highly colored. Earlier than Stanwick.

Prices: Same as for Peach trees.

APRICOTS

Where given the full peach spraying program, Apricots will bear well in the region west of the Cascades. Handle like peach trees.

Prices: Same as for Peach trees.

Southwick—This is a local variety that has borne regularly for many years under Willamette Valley conditions. Original tree has been growing near Rickreall for over 50 years. A good size fruit and regular in bearing. Best bet for conditions west of Cascades.

Tilton—A large fruiting commercial variety.

Wenatchee Moorpark—One of the leading commercial varieties of Eastern Washington.

SWEET CHERRIES

Sweet Cherries make large productive trees. Bing, Lambert and Royal Anne require other varieties for pollinizers as they will not bear well planted either alone or with each other. We list several pollinizers below. Our cherries are all grown on mazzard root—the long-lived root.

Prices:	Each	10	100
---------	------	----	-----

2 yr. branched..... 90c 75c 50c

4 to 6 ft. whips..... 70c 60c 50c

3 to 4 ft. whips..... 60c 50c 40c

2 to 3 ft. whips..... 50c 40c 30c

*Bing—A large, solid black cherry. High quality. Ripens with Royal Anne.

*Black Republican—Black fruit, smaller than Bing. Used largely as pollinizer for Bing, Lambert and Royal Anne.

*Black Tartarian—Ripens earlier than main crop cherries. Soft, black fruit. Used as pollinizer.

Hoskins—A splendid pollinizer with fruit resembling that of Bing, but a little smaller. High quality.

*Lambert—Large, heart shaped, purplish-red fruit. Ripens after Bing. Better suited to west of Cascades conditions than Bing. A fine cherry.

*Royal Anne—Yellow with red cheek. The great canning cherry. Ripens ahead of Lambert.

Waterhouse—A variety resembling Royal Anne, but softer. Used as pollinizer.

*Deacon—A good pollinizer for sweet cherries.

*Norma—A well recommended pollinizer.

SOUR CHERRIES

Prices:	Each	10	100
---------	------	----	-----

2 year 90c 75c 50c

1 yr. 3 ft. up..... 70c 60c 50c

2 1/2 ft. up..... 60c 50c 40c

2 ft. up..... 50c 40c 30c

*Kentish (Early Richmond)—Medium size, red sour pie cherry. Ripens a little ahead of Montmorency. Used as pollinizer for Montmorency.

Late Duke—Large dark red, half-sour cherry ripening late in July.

May Duke—Medium size, red, half-sour, ripening early June.

*Montmorency—The best of the pie cherries. Bears heavily and young.

PRUNES

Price—same as Plums.

*Italian—The great canning and drying prune. Medium size fruit. Ripens in September. The best canning of the plum family.

*Petite (French)—Small fruited, sweet prune.

*Date—A strain of Petites with larger fruit and larger pit. Good quality.

Gardner Petite—An improved Petite originated by Prof. Victor Gardner while at OSC.

Noble—A very large, high quality Petite type of prune originated in Oregon.

*Standard—A very large dark prune of fine quality ripening a little ahead of Italian.

*Imperial—Large, sweet, reddish-purple. Good quality. Plant with other prunes for pollinization.

Silver—Large, sweet, yellow. Late.

PLUMS

Prices: Same as Apples.

Plums—In approximate order of ripening. Beauty—Early, heart shaped, red. Good. Apex Plumcot—A cross between a plum and apricot.

*Peach Plum—Large. Early.

Tragedy—A large purple plum of high quality.

*Shiro—Medium size, yellow skin. Productive.

*Santa Rosa—Purplish-red with amber colored flesh. In our opinion probably the best plum for local conditions. Quality high.

*Burbank—Early. Productive. Good quality.

*Green Gage—Green color skin and flesh. Ripens late August. Good quality.

Wickson—Large, juicy, heart-shaped, red.

Satsuma—Red skin and flesh. Fine flavor. Productive when planted with Burbank or other varieties.

*Blue Damson—Small, blue skinned. Used largely for jam and preserves.

Bradshaw—A large blue mid-season plum.

Tennant—A large blue plum.

*Hungarian—Large, late. Purplish red. Fair quality.

NUT TREES

All the nut tree varieties listed herein are hardy under conditions prevailing west of the Cascades. Nuts are very easily grown and a complete assortment should be found in every home planting. If you grow them yourself you can afford to eat more nuts.

GRAFTED FRANQUETTE WALNUTS

	Each	10 rate	100 rate
--	------	---------	----------

3 to 4 ft. \$1.25 \$1.00 \$.75

4 to 6 ft. 1.50 1.25 1.00

6 to 8 ft. 1.75 1.50 1.25

8 to 10 ft. 2.00 2.00 2.00

King Franquette—A pollinizer for Franquette walnut. Some years Franquette bears well without a pollinizer and in other years the yield is increased materially by having a pollinizer.

4 to 6 ft. trees, \$3.50 each.

Note—Walnut trees larger than 3 to 4 ft. grade cannot be shipped parcel post unless cut back. All walnut trees should be cut back on planting.

ORDER IMMEDIATELY WHILE ASSORTMENTS ARE COMPLETE. A 20% deposit will hold your order till shipping time.

THE NEW ROYAL FILBERT

This introduction of our own is the largest filbert we have seen. Even larger than the largest Brixnut. Quality high. Percentage of meat much higher than Barcelona. Self husking. A real filbert.

Prices: 2 to 3 ft., \$1.50; 3 to 4 ft., \$1.75; 4 to 5 ft., \$2.00 each. No quantity prices on Royal.

Pearcy No. 14, Percy No. 17 and Percy No. 18 same prices as Royal. See Filbert leaflet for description of these filbert novelties.

Longfellow Filbert—This is a new variety of the DuChilly type. The nuts are longer and larger than DuChilly and are self-husking. The best of the long type of filberts. Budded trees only at same price as Royal filberts.

BRIXNUT FILBERT TREES

Brixnut is one of the newer filbert varieties. It produces large nuts and bears young and heavily. Its pollinizer is Halls Giant, another large round filbert. Our trees are all budded on Barcelona seedling roots.

	Each	10 rate	100 rate
--	------	---------	----------

2 to 3 ft. \$.80 70c ea. 60c ea.

3 to 4 ft.90 80c ea. 70c ea.

4 to 5 ft. 1.00 90c ea. 80c ea.

Gassway—A fine pollinizer for DuChilly.

Alpha—A DuChilly pollinizer.

Montebello—A round, self-husking pollinizer for Barcelona. Same shape as Barcelona and is harvested as a Barcelona.

Clackamas—A good pollinizer for DuChilly. Prices on Alpha, Gassway, Clackamas and Montebello same as for Brixnut.

FIGS

Our Fig varieties will produce in the climate west of the Cascades. These varieties do not require pollinizers. Excellent for eating fresh as well as for preserves and cooking. Bear young. Plant on well drained soil.

Varieties: Latturula Honey—White fruit. Ripens two crops a year.

Gillette—Yellow fruit. One crop annually. Crop comes on between the two crops of Latturula.

3-year trees, 2 to 3 ft. high, \$1.50 each.

FILBERTS

Tip-layered Filbert Trees—Many of the finest orchards are of the tip-layered trees. These have a lighter root than the transplanted types but if planted according to our instructions they will give excellent results and their price is low. We can supply Barcelona with DuChilly and Daviana pollinizers in this class of tree.

Prices on Tip-layered Filbert Trees

	Each	10 rate	100
--	------	---------	-----

2 to 3 ft. 45c 40c 35c

3 to 4 ft. 60c 50c 45c

4 to 5 ft. 80c 70c 60c

Transplanted Filbert Trees—These are a year older than the tip-layered types, being tip-layers that have been carried an additional year in the nursery rows. We advise Barcelona as a main crop with DuChilly, Daviana and White Aveline as pollinizers. If DuChilly is used as main crop use Gassway and Clackamas as pollinizers.

Transplanted Filbert Trees

	Each	10 rate	100
--	------	---------	-----

4 to 5 ft. 85c 75c 65c

3 to 4 ft. 65c 60c 50c

2 to 3 ft. 50c 45c 40c

Grafted Black Walnut—We offer the Ohio. It is an upright grower and makes a fine shade tree. The nuts are high quality, coming out of the shells in halves and the shell is thin for a black walnut.

Price: 4 to 6 ft. trees, \$1.50 each.

ALMONDS

Certain varieties of Almonds thrive west of the Cascades. The varieties we offer are soft shelled; as fine as anything you can buy in the stores. They are local varieties that have proven their bearing qualities under our climatic conditions.

Prices: Same as Peaches.

Grafted Chestnuts—Chestnuts thrive west of the Cascades. The grafted varieties produce the best nuts and are most satisfactory. Plant two varieties together.

Varieties

Quercy—A large French variety that is also a fine pollinizer for other varieties.

Large American Sweet—The best American variety. Highest quality.

Chinese Sweet Chestnut—A very hardy variety of good quality.

Prices:	Each	10 rate
---------	------	---------

4 to 6 ft. 1.75 1.50

3 to 4 ft. 1.50 1.25

Seedling Chestnuts

4 to 6 ft. 1.00 .90

3 to 4 ft.90 .75

Grafted Hickory Trees—These trees thrive here west of the Cascades and make fine shade trees. We offer Monahan and Glover, both thin shelled varieties that crack out easily.

Price: 4 to 6 ft. trees, \$3.00 each.

Grafted Jap Heartnuts—A Jap walnut variety of heart shape that cracks out whole. 4 to 6 ft. trees, \$2.50 each.

Persimmons—Japanese persimmons thrive here. Their yellow fruits are ornamental as well as fine to eat.

Varieties: Fuyu-Hachiya and Tamopan.

Price: 4 to 6 ft., \$1.50; 3 to 4 ft., \$1.35.

BERRIES

The New Boysenberry

The newest thing in berries and one of the most promising is the Boysenberry. This berry closely resembles Youngberry but is larger and more productive and its flavor is slightly different. Boysenberry starts bearing when Youngberry is about half thru its season, thus lengthening the berry season. Boysenberry has been a sensation wherever it has fruited.

Price: 25c each; \$2.00 per dozen; \$12.50 per 100.

PEARCY PAYS THE POSTAGE ON ALL ORDERS AMOUNTING TO \$1.00 OR OVER.

Youngberry—This is one of the finest berries grown. Delicious raw or in pies, jams, jelly or canned. Grow on a trellis like a loganberry. A dozen plants will amply supply the average family.

Ideal Wild Mountain Blackberry—This is a domesticated form of the wild mountain blackberry. It is best pie berry grown. Has all the high quality of the wild berry and bears well.

Loganberry—Fine for pies, jams and canned.

Prices of Youngberry, Loganberry and Ideal Mountain Blackberry Plants

25c each; \$1.50 per dozen

Gooseberries—Oregon Champion, the standard berry of the Northwest.

Perfection Currants—A large red currant.

White Grape Currant—Large clusters of white currants.

Prices: 25c each; \$1.50 per dozen.

Red Raspberries

Cuthbert—High quality. Less productive than some others.
